

Quality Lime & Stone

walker
industries

Walker
Aggregates Inc.

Why use Agricultural Lime?

- Promotes bacterial activity in the soil
- Improves soil structure with better water infiltration and reduced energy for roots to penetrate soil
- Enhances herbicide effectiveness
- Improves fertilizer performance resulting in increased crop yields
- Reduces toxic elements that inhibit growth

Why use Walker Aggregates Inc. Agricultural Lime?

- Ideal Neutralizing Value gives you more bang for your buck
- High Fineness rating gives you a faster reaction time to neutralize soil acidity
- Elevated Agricultural Index indicates the quality of the material and will reduce application rates
- Fair prices and fast, friendly service

Sample ID:			Vineland Quarries	Walker Brothers Asphalt	Walker Brothers Quarries	Severn Pines
PARAMETER	UNITS	MRL				
Calcium	%	0.1	22.9	25.7	23.3	35.3
Magnesium	%	0.1	13.4	8.90	11.3	0.43
Neutralizing Value	%CaCO ₃ eq	1	>99	95	99	96.8
