# Walker Industries

## Who we are

### Community involvement

The importance of the community resonates with each and every one of us at Walker Industries. It is a philosophy rooted in tradition that dates back to our beginning in 1887.

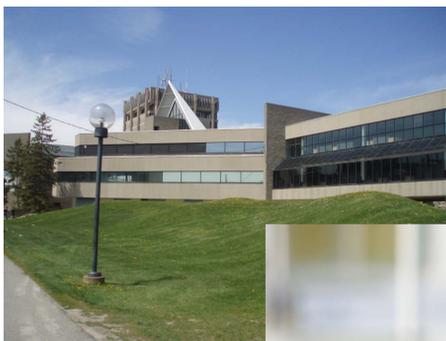

### Environment

- Because our business is the environment, we are conscious of our role as stewards.
- We challenge our employees to innovate and go beyond compliance to enhance the environment wherever possible.

### Community

- We take special care to listen and respond to our neighbours, and we make public engagement a proactive, collaborative process.
- Firmly rooted in the community and dedicated to community service, Walker Industries sponsors a wide variety of recreational, cultural, charitable, environmental and educational organizations.

### Tomorrow's Generations

- We nurture the next generation of future leaders through support for Brock University and Niagara College.
- Recognizing that education is more than academics, we support community based programs that give the next generation practical experience.
